**Improved 2019 design with new and enhanced features**

## Counter- pressure Triblock – “COMPACTBLOCK” Flexible Rinser - Filler – Capper- Seamer

General view of bottling

Detail of rinser

General view of canning

### Product description

The **COMPACTBLOCK** is also available in 441, 442, 661 & 662 configurations. Also able to supply the counter-pressure filler in 4 & 6 valve configurations without rinser or capper.

### Specifications

This **COMPACTBLOCK** has been designed to package carbonated products such as carbonated beer, cider, kombucha, water and soft drinks into glass bottles and close them with crown caps. **It is also possible to fill PET bottles** with this machine and it can be fitted with different types of capping machines on request and now also aluminium cans.

- Machine frame in stainless steel, on self-locking wheels for easy mobility.
- No bottle – no rinse device to avoid sprays
- Fully automatic fill cycle operation through a PLC (which is fully adjustable by the client) for pre-evacuation of air. CO<sup>2</sup> injection, filling and degassing which is required for products sensitive to oxygen such as beer or cider to reduce as much as possible the dissolved oxygen levels in the bottles after they are sealed. 5 “ colour HMI screen as option.

Twin head capping turret with automatic cap sorter to close two bottles simultaneously (for crown caps only). CO<sup>2</sup> injection device into the neck of the bottle prior to closing, to remove residual oxygen in the neck-space.

Spray-balls inside header tank and CIP in continuous motion for high pressure cleaning of the internal parts of the unit which are in contact with the product.

**Products:** Carbonated beer, cider, water, carbonated soft drinks, kombucha sparkling wine

- Bottle type: Glass , PET bottles & Aluminium cans
- Cap type: Crown caps (other cap types available on request) can seamer
- Output: Up to 500 bottles per hour (depending on bottle format & fill temperature)
- Bottle dimensions: 370mm high max – 150mmdiameter max

**NEW!** Aluminium can filling and seaming kit now available as an option
